

Thet Paing Soe

Mobile Developer (Flutter)

thetpaingsoe92001@gmail.com | +66 948966458 | <https://github.com/thetpaing-jk> | [linkedin.com/in/thet-paing-soe-a4916b3a3](https://www.linkedin.com/in/thet-paing-soe-a4916b3a3)

PROFESSIONAL SUMMARY

Results-driven Flutter Developer with 3+ years of experience delivering production-grade, cross-platform mobile applications. Specializes in clean architecture, responsive UI development, RESTful API integration, and state management using Provider, BLoC, and Riverpod. Proven track record of integrating complex business systems including Odoo ERP, Firebase, Google Maps, and push notification services into scalable, maintainable Flutter solutions. Adept at collaborating within Agile teams to deliver high-quality mobile products that solve real-world business workflows, from HR and membership platforms to distribution and van sales systems.

EXPERIENCE

Senior Mobile Flutter Developer | 2023 - Present

Asia Matrix Business Solution and Consulting Company

Led architecture and feature design for 5+ production Flutter applications, defining state management patterns, code structure, and integration strategies across the team.

Managed end-to-end client engagement including requirement gathering, workflow diagram design, and solution sign-off, bridging business needs and technical implementation.

Mentored junior developers through code reviews, technical guidance, and pair programming, raising team code quality and accelerating onboarding.

Applied Provider, BLoC, and Riverpod state management patterns alongside asynchronous programming to maintain performance and code quality across complex production workflows.

Optimised existing applications for speed, responsiveness, and long-term maintainability, reducing technical debt and improving stability across the product suite.

Junior Mobile Flutter Developer | 2022 - 2023

Asia Matrix Business Solution and Consulting Company

Delivered 3+ Flutter applications across HR and distribution domains, contributing to cross-platform iOS and Android coverage under senior developer guidance.

Integrated RESTful APIs, Odoo ERP backend services, Firebase, and SQL databases into production workflows, enabling real-time data sync, offline support, and reliable app behaviour.

Implemented third-party services including Google Maps API, OneSignal push notifications, OAuth authentication, and Socket IO across multiple client applications.

Collaborated with designers, product managers, and back-end engineers to translate business requirements into scalable mobile features within Agile sprint cycles.

SKILLS

Mobile	Flutter, Dart, iOS, Android, responsive UI, animations, interactive UI implementation
Architecture	Provider, BLoC, Riverpod, Clean Architecture, MVVM, asynchronous programming, performance optimisation
Integrations	RESTful APIs, Odoo ERP, Firebase, Socket IO, OneSignal, Google Maps API, OAuth, MCP Integration
Databases	MySQL, SQLite, MongoDB, PostgreSQL
Tools	GitHub, Android Studio, VS Code, Postman, Figma, Agile, Scrum
Languages	Myanmar (native), English (professional)

EDUCATION

B.Sc. Computing | Edinburgh Napier University 2019 - 2021

Higher National Diploma (H.N.D), Pearson | Info Myanmar University 2018 - 2019

Higher National Certificate (H.N.C), Pearson | Info Myanmar University 2017 - 2018
